

# People counting and the security in public buildings and open spaces

Designe and developed by :  
 **EURECAM**  
 Counting for you !

## Indicator of affluence

- Real time occupancy rate
- Overflow alert
- Areas management
- Attendance analysis

### OVERVIEW

Because of **security rules**, the affluence in your premises must not overtake a **maximum occupancy ratio**. EURECAM has developed a system for **public buildings and open spaces** : a **tailored solution** to fit with your requirements.

### COMPTIPIX, the sensor

Fits into all premises  
 In-doors and out-doors

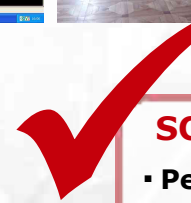

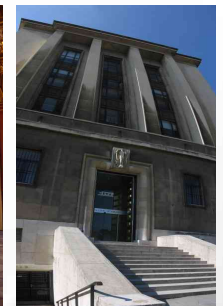

### SLCP ERP

#### Real time affluence control

- Unlimited number of sensors
- Command of areas
- Configurable preset of alert thresholds
- Dynamic display on site map
- Client - server system / multi station network

#### Data analysis

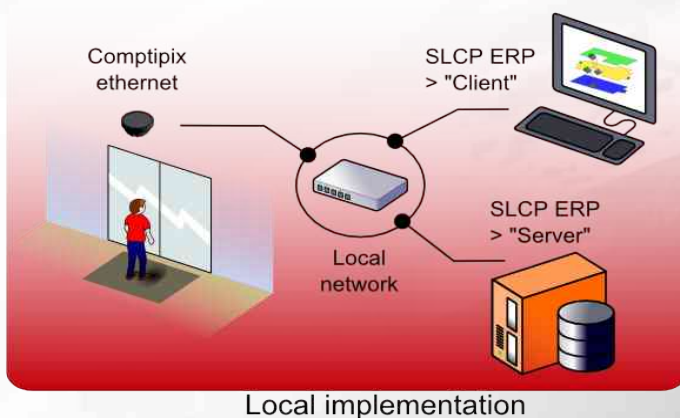

- Historical recording
- Multivariate survey

## SOLUTIONS

- Permanent or temporary
- In- and out-doors

### Example

## Public Buildings and Open Spaces

- Museums
- Leisure parks
- Swimming pools
- Libraries
- Art galleries
- Event halls
- Congress halls
- Office buildings
- Historic places
- ...
